

Oracle Hyperion Environment

A fully configured virtual environment with the Oracle Hyperion suite of products installed. Get up and running quick for a new Hyperion project, software evaluation, system upgrade, or migration.

What's Included

- > Virtual machine(s) with entire Hyperion suite installed, including Planning, Essbase, HFM, FDM, ODI, Financial Reporting, and Smart View
- > A walkthrough session on how to operate and configure the environment
- > Sandbox environment includes a Mac or Windows PC with the Hyperion suite already running
- > Multiple versions of Hyperion System 11 available

Major Benefits

- > "Plug and play" environment gets you up and running quicker on new projects
- > Reduce the need for consulting costs associated with Hyperion installations
- > Get a new, self contained environment to use for software evaluation, training, new release upgrades, and application development
